🔍 Abstract: **PROBLEM TO BE SOLVED:** To provide a method for manufacturing a metal plate for a metal core printed wiring board and a method for manufacturing the metal core printed wiring board which make simple and inexpensive a process of manufacturing the metal core printed wiring board and also increase the density of a metal window for a through hole of a metal plate for a metal core and insulation reliability.

SOLUTION: As for the manufacturing method for the metal plate used for the metal core printed wiring board, this manufacturing method is provided for the metal plate for the metal core printed wiring board which form the metal window for the through hole of the metal plate by punching.
